Kent Gilmore,

Kent thank you for the fantastic job your company preformed at our facility. We have experienced lower temperatures inside the building and absolutely no leaking for the first time in the history of this facility. I want to pass along how pleased we were with you, Carlos and the crew. Everyone was very professional and courteous. You kept us in the loop at all times and made it happen exactly how it was forecasted. It's not always this way when working with contractors. I'm very pleased with the project outcome and hope you can stop buy if you're in the area.

Please feel free to show this project to prospective clients in the area.
