Dear Robert,

Just a short note to say Thank You for the excellent job on the roof system your company installed on my house. The workmanship was excellent, in fact, better than I expected. Your employees were great to work with and the price was exactly as we agreed.

I would be glad to recommend your company to anyone.

This is the first time since I purchased this home almost 15 years ago that I haven't had a leak in some part of the roof....I can finally start using my pots and pans for cooking instead of drip catchers. Thank you again.

Sincerely,
